NATULON[®] Chemically Recycled

Introducing NATULON[®], the recyclable fastening product.

NATULON[®] is designed for customers utilizing a closed loop recycling program. Made from chemically recycled polyester (Post Consumer), it is perpetually recyclable. Through our NATULON[®] products, we have reduced the need for new materials by employing the most advanced chemical recycling technology.

• PBT=Poly Butylene Terephthalate PET=Poly Ethylene Terephthalate POM=Poly Oxy Methylene (polyacetal) Zn=Zinc Alloy AL=Aluminum Alloy Br=Brass

• The material used for the tape is chemically recycled PET.

• Dye-to-Match is not available. The color of the zipper chain may differ from the regular color due to the nature of recycled materials.

• VSPB element color: 144, 382, 501, 560, 562, 572, 574, 576, 580, 904, metallic V color, metallic B color (12 colors in total)

• More variations are under development. For more information, please contact YKK representatives.
